

DANAR PRASETYO BHAKTI NUGROHO

0823-4025-5045 | danar.nugroho@student.president.ac.id | www.linkedin.com/in/danarnugroho06 | South Jakarta

PROFILE

Information Systems student at President University specializing in Enterprise Resource Planning (ERP), with hands-on experience in analyzing business processes, mapping end-to-end operational workflows, and identifying opportunities for process improvement through ERP and business analysis projects. Skilled in translating operational requirements into structured processes and coordinating cross-functional projects, with a strong interest in business operations and process efficiency.

EDUCATION

Undergraduate in Information System, ERP Specialization

Sept 2024 – Present

President University, Jababeka Cikarang, Bekasi

GPA: 3.75 / 4.00

Jababeka Scholarship 2024 – 2nd-Ranked Awardee

PROJECTS

ERP Implementation – *Epicor: Business Case Study*

January 2026 – May 2026

Team Leader

- Mapped end-to-end business processes across Purchasing, Production, and Sales for a simulated manufacturing company, translating operational requirements into structured workflows in Epicor ERP.
- Analyzed existing workflows to identify process gaps and inefficiencies, then aligned ERP configurations with the proposed business processes across Purchasing, Production, and Sales.
- Conducted end-to-end testing across configured ERP workflows and documented implementation decisions to verify that each process executed as designed.
- Presented the final ERP implementation and demonstrated how the configured workflows addressed the process issues identified during the initial business analysis.

Gojek Business Analysis – *Academic Project: IS Project Management*

April 2026 – May 2026

Project Manager

- Led a five-member team in mapping Gojek's business processes, while directly handling the general market analysis and GoPay payment module.
- Analyzed pre-Gojek market conditions to identify accessibility, pricing, and payment pain points, then evaluated how Gojek's integrated services addressed these operational gaps.
- Consolidated the team's findings into AS-IS and TO-BE process analyses to illustrate operational changes introduced through Gojek's digital platform.

Tech Education Workshop (Virtopia) – *Yayasan Gema Insan Amanah, Cikarang*

June 2025

Vice Project Manager

- Coordinated the planning and execution of a one-day digital education program for 30 children, aligning activity schedules and team responsibilities across the organizing committee.
- Coordinated team activities, program planning, and stakeholder communication while also delivering interactive sessions on basic coding and virtual reality.

PreUTix (President University Ticketing) – *Academic Project: Economic Survival*

Feb 2025 – May 2025

Project Manager

- Defined functional requirements and mapped event registration and ticketing workflows for an integrated university event platform.
- Led project coordination and documentation, translating identified operational requirements into the platform's proposed process and system design.

EXPERIENCE

Head Coach – *Beast Fight Camp, Bekasi Regency*

Sept 2025 – May 2026

- Managed daily operations covering coach scheduling, membership administration, financial records, and structured training programs for 5–10 active students per month.
- Introduced a more structured training schedule and member coordination process, improving consistency in session planning and day-to-day communication.

Logistic

January 2026 – May 2026

Tech Sprint 3 In 1 – President University, Cikarang

- Handled event logistics, including equipment preparation, venue setup, and on-site coordination for TechSprint 3 In 1, a two-day competition involving 10+ participating teams.
- Coordinated with the Public Relations team on outreach activities to five schools across the Cikarang area and supported logistical requirements throughout event preparation.
