WORK EXPERIENCE

Keno Store, Online / Remote
Founder & Owner, Digital Commerce & Operations — Jan 2020 - Aug 2023
Founded and independently managed KenoStore, an online digital commerce business. Handled end-to-end operations including product management, sales, order processing, customer service, marketing, and account management. Built and managed the store's Discord server, including its channels, features, and customer-facing systems, while initially managing sales and promotion through Instagram. Also handled content creation and editing for the business.

PSN IPB 2026 – Chemistry Challenge, SMA Negeri 1 Palu, Palu, Indonesia
Chemistry Competition Mentor, Chemistry Challenge — Jul 2026 - Present.
Mentored three high school students from SMA Negeri 1 Palu in preparation for the PSN IPB 2026 Chemistry Challenge. Provided structured coaching in chemistry concepts, olympiad-level problem solving, and competition strategies throughout the online preliminary round. Successfully guided the team to qualify for the offline semifinal round held at IPB.

PROJECTS

Short Film "Dikotomi", Director of Photography — Mar 2025 - May 2025
Served as Director of Photography (DOP) for the short film Dikotomi, overseeing the visual direction, cinematography, camera work, and composition to establish the film's visual style. The film was recognized and awarded at film festivals, demonstrating the team's achievement in filmmaking and visual storytelling.

LANGUAGE PROFICIENCIES

Indonesia (Native); English (Fluent)

PERSONAL

I am an undergraduate Information Technology student with a strong interest in Artificial Intelligence, technology, and creative problem-solving. I have gained experience through entrepreneurship, mentoring, and creative projects, including managing an online digital business, mentoring students for a national-level chemistry competition, and working in film production. I am eager to continuously develop my technical and creative skills while applying them to real-world challenges.
